

Positive, Practical & Personal best practice
- meeting the challenge of climate change -
by beating rising costs & improving lifestyle

~ This is a two way process ~

what the experts have to say

Have your say to the experts

10:30 – Welcome and introduction

[be sure to collect your Lucky Door Prize No.]

10:40 – What is Climate Change?

Hear from the experts–what’s it mean?

11:15 - Break & get to know each other ~ An opportunity to swap ideas and make contact, and how to stay in touch with others

[Tea/coffee available from the Jumping Bean]

11:30 – Why be concerned?

A discussion group about climate change

12:30 - Put it in the bin!

Hints and tips on recycling

Ms Kimberley Talbot, CEO Richmond Club, tells how the Club is engaging with the community for a better way of living.

Session leader Dr Michael Brennan and associate experts Professor Huda and Eric Brocken have been involved in climate issues for more than 40 years.

For half an hour you tell the experts why you are concerned about climate change and what we as a community can do.

A free lunch for the champion recycler – a number of items will be displayed and you will be invited to say what goes where!

01:00 – Lunch time & get to know each other *[Drawing of Lucky Door Prize]*

[Snacks to full sized meals available at the new facilities]

**1:45 –Energy, Lighting, heating and cooling
- practical applications**

Professionals from the solar, horticulture and cooling industries discuss various ways and means.

**2:15 – Eating to Live: Are we eating
ourselves to death:**

Experts from *Active 8* tell how to gain good health and keep it. Also a Food Expert from Living Hawkesbury will talk about food!

**2:45 – Wrapping-up: 15 minutes to
complete the day and plan the next**

The experts are all ears! You can tell us where to go from here!

**Richmond Club, East Market Street
Friday 7 November, 2008**
